

# Subject: Earthquake Bomb

The disaster in Haiti was manmade. It was not an act of God, but an act of a people who wants to be God. The disaster was created with a bomb, HAARP or ELF (extremely low frequency). Haiti is not the first country the United States used weather modifications on. Project Popeye was used in the Vietnam War by the United States. Project Popeye was weather modification plan used by the United States during the war making it rain in Vietnam everyday to slow down the Vietnamese soldiers. The native Africans in Haiti are simply being murdered by the United States and other European countries. It is naturally impossible for an earthquake over 7.5 on the rector scale for other countries on the same land mass in the Caribbean not feel any tremors. I listen to a Haitian speak a couple of days ago; he informed me that the United States took control of the airport not letting anyone in or out of Haiti. The native stated it took at least two days to get a flight out of Haiti, which means the airport was closed for at least two days. The question US citizens should have is if there is an emergency in Haiti why are you preventing food, water, bandages and other supplies from getting into the country? Why is the US preventing native Haitians from getting out of the disaster area? Another problem with the United States the first thing sent was the military, not just the military but Black Water a private military group, why? Another question for the United States why did you not sent any food, water or other supplies to the Haitian people with the military? Why would the Haitians need the military over food and water? This should remind you of the United States withholding food, water, bandages and everything else from the citizen in Katrina – Louisiana. The Haitians are not savages, not looting, or killing each other this is propaganda. Don't think for one minute the United States want to save or help the people in Haiti. Just because the President is on the television saying he's pledging one hundred million dollars to the relief to Haiti towards the disaster, as a citizen you need to what the money is being spent on? Believing in the President you too will wake up hungry, suffering or dead. The president is carrying out a preplanned agenda, proclaiming innocence all the way just like his employers. The money is being spent on the military presence in the country, however, that will not be the answer given. The money does not mean it will be given to the needed now. Normally it will be given in loans for repayment through the World Bank and IMF, simply another form of slavery; the loans can never be paid off. You must understand nothing just happens it is all planned. What is happening in the Caribbean is happening in the Middle East, same plan a different land mass. They are creating an easy strike zone. The United States does not have a base in the area, so they will put one in Haiti. United States military base is necessary for the white boys because the Haiti sits between Venezuela and Cuba. The United States is planning a strike on Venezuela and Cuba; I believe Venezuela first. Cuba is closer to Haiti than Venezuela. They may strike the countries before a military base is built, Europeans will be close enough to create a lot of problems within Cuba and Venezuela without a military base. They will be close enough to better plan an assassination attempt on the leaders. The Europeans have silently taken control of the Dominican Republic power

structure implanting people, who look like the natives but are loyal to them, this Caribbean Island also on the same land mass as Haiti. Not only do they want to destroy Haiti because of the nature of the people not willing to be a slave to the European, they are willing to fight and kill them. The Haitian people set the tone for fighting back in the Haitian Revolution against Napoleon. The Haitian people killed all thirty two Europeans on the Island who was sent to create slavery in Haiti like the United States. Hence this is the reason why Haitians are detained in Florida when they arrive. The Haitian people are being destroyed by the Europeans because they are fearless soldiers. The Cubans and Venezuelans decided to do the same thing as the Haitians; fought back and won against a bigger more powerful military. Vietnam decided to fight the United States a bigger more powerful military and won also. The point is the European has to stop occupying African territory and land; Africans must stop them. At this time it seems as though the United States is willing to allow a few Haitians to move to the US. That should raise a flag for you. Some of the Haitians that are supposed to make it to the US are being stolen for DNA testing. The babies that are supposed to be adopted by all these white people are going to be brain washed but also tested on (DNA). The US is charging eighteen thousand dollars to start an adoption for Haitian babies ruling out a lot of Africans adopting Africans, but they are also being told it could take up to three years to get the babies. It is not right. How have these white people already adopted these babies from Haiti in a week? It is all planned. That alone should tell you they are clearing Haiti of Africans and America can't be too far behind in turmoil. Haiti was blown up to create mayhem, confusion, hunger, riots and a sense of desperation. Once the country is unstable the enemy takes over. While the Haitians and world are distracted the Europeans are murdering the current leadership team and threatening others and paying others off, that is why the capitol city was destroyed; disrupting the current government. Same trick over and over and over. The moral of the story is if you don't allow the Europeans dictate to you what to do they will murder you by any means necessary. The United States Navy is responsible for all ground advance technology weaponry. Military advanced technology testing is done at China Lake military base in California. You can visit China Lake website or [chinalakemuseum.org](http://chinalakemuseum.org), click on history, overview, secret city, weather modification or anything else. The Haitian accepting food, medication, water, vaccinations, etc from the enemy is another disaster altogether. One thing about the white boys they do not leave home without their weapons, ammunition and poison (AIDS, H1N1, West Nile virus, small pox, chicken flu, bird flu, herpes, vaccinations, etc), helping is not their thing, controlling is. Haitians are poor not diseased. Haitians are educated not trained. The propaganda machine (television, newspaper, talk shows, etc.) states the Haitians do not have a high diploma. This is true. The United States wants to train them the way you have been trained. Americans have not been educated you but trained, the Haitians do not need training. No other people should educate Haitians. Europeans are getting ready to steal the minds of the Haitians they do not murder. The United States have the sickest people on the planet and this is an industrialized country supposable. The people in the United States are the sickest, however, eat more food, have better housing, have automobiles, go to doctors, cleaner

water, better public works, better sanitation, take medications, get vaccinations, television, telephones, internet, more than any other country, think about it. That only goes to show luxuries, abundance, plenty of food, hospitals and technology are not necessary. Another person told me the food the United States finally decided to send has outdated dates on them. Over ten years ago in California in silicon valley a technological company created an earthquake connected to a computer using ELF, it was advertised on their website; I read it, however, forgotten the website and name of company. You can stop donating money to the Red Cross more than half the money never reaches the people, plus they are following through with the plan to vaccinate the people and taking blood according to the planned agenda. Once again the former presidents Bush and Clinton has banned together to collect monies for Haitians. Another Katrina – Louisiana story the former presidents collected money for those Africans also, however, has not produced a single document of helping a single African in Katrina; by the way the former presidents collected more than ninety one million dollars for Katrina victims. The United States have asked all countries several days ago to stop their search and rescue teams. The US claims that if any Haitians are found they would spread diseases. Anyone that is found after a week can be cured holistically without spreading any diseases. I will be willing to cure them myself. Anyone that has the will power and self control to live for that many days covered up without knowing whether they will be found is my kind of person. This is the kind of person who thinks, the kind of person Europeans hate. All European organizations (Red Cross, missionaries, feed the hungry, etc) should leave Haiti. All of these groups are poisoning the Haitians according to plan. None of their groups are willing to save a single Haitian. Everywhere Europeans go death, disease and destruction follows, everywhere.

There is some good news in Haiti. The Cubans and Venezuelans have been providing food, water and medical supplies ever since the first day. These countries are great allies with good hearts and have not been fooled by the media or intimidated by the US. There are Africans from different countries providing the same services.

Here is a list of names and telephone numbers of Africans helping Africans. If you are able to travel to Haiti for at least thirty days, work, live in a group; you can be flown to Haiti for free. You can donate monies to these organizations even if you cannot travel to Haiti.
